USTA AGE ELIGIBILITY

MONTH OF BIRTH AGE ELIGIBILITY: The USTA uses a "month of birth" age eligibility rule for junior players competing in USTA sanctioned tournaments. This rule applies to all local, District, Sectional, and National USTA sanctioned tournaments – it does not apply to ITF tournaments (see "ITF Tournament Information" on page 13). Junior players may continue to play in the 12, 14, 16 and 18 age divisions until the month they turn 13, 15, 17, or 19, respectively. Players should use the starting date of a tournament to determine eligibility when a tournament begins in one month and ends in the next.

SETTING GOALS: All junior players are responsible for setting their own competitive goals and meeting the requirements for tournaments, ranking, and endorsement.

PLANNING AHEAD: All junior players should plan ahead and consult their parents, coaches, or their Sectional Office to help them decide which age group is best for them to play in order to meet their tennis development and ranking goals.

NATIONAL STANDINGS LISTS (NSLS) AND REGIONAL TOURNAMENT STANDINGS LISTS

DEFINITION - NATIONAL STANDINGS LISTS: National Standings Lists are published at least monthly for each division using the results described below. It is anticipated that NSLs will be published as frequently as once a week. An NSL for a division will include all players who meet the age and citizenship/certain alien eligibility requirements who have played at least one National Ranking Tournament in the division and have accumulated at least 1 ranking point. National Ranking Tournaments include the USTA Junior National Championships, USTA Regional Tournaments, USTA International Tournaments, and ITF Tournaments on the National Junior Tournament Schedule and up to 12 Sectional tournaments designated by each Section.

DEFINITION - REGIONAL TOURNAMENT STANDINGS LISTS: These are special lists similar to NSLs that are prepared only for USTA Regional Tournaments. The Regional Tournament Standings Lists are identical to the NSLs, *except* that they include players who do not meet the citizen/certain alien requirements to play in USTA Junior National Championships because non-citizens are eligible for USTA Regional Tournaments. The Regional Tournament Standings Lists are published at least monthly for each division using the results described below. It is anticipated that Regional Tournament Standings Lists will be published as frequently as once a week.

RESULTS USED TO CALCULATE NSLs AND REGIONAL TOURNAMENT STANDINGS LISTS: NSLs and Regional Tournament Standings Lists are calculated using ranking points earned during the previous 12-month period based on the points per round ranking system as follows:

- 100% of the singles ranking points from a player's the 8 Best National Ranking Tournaments;
 - 100% of the singles bonus points earned at BG 18 ITF bonus Point-Only Events on the National Junior Tournament Schedule; and
 - 15% of the doubles ranking points from a player's 8 Best National Ranking Tournaments.
- Points earned in a higher age division tournament count towards a player's standing in one or more younger age divisions.

TIEBREAK RULES FOR NSLs AND REGIONAL TOURNAMENT STANDINGS LISTS: Tiebreaks on a NSL or Regional Tournament Standings List will be determined as follows:

1. A player whose best event has the highest number of points, second best, third best, etc. through eight events.
2. Total Bonus Points earned in all events played during the computation period.
3. Best random draw number

USTA NATIONAL CHAMPIONSHIPS

DEFINITION – The USTA National Championships are the highest level of USTA national junior competition. Four USTA National Championships are held each year in each division: USTA National Spring Championships, USTA National Clay Court Championships, The USTA National Championships, and USTA National Winter Championships.

ELIGIBILITY: Players who meet the U.S. citizenship or residency requirements, age eligibility requirements, and membership requirements (current USTA membership) may enter. In addition, professional players may enter. The USTA National Championships are the only type of USTA junior national championship that professional players can enter.

ENTRY PROCEDURES – Players must enter using TennisLink. See “Entering Tournaments on the National Junior Tournament Schedule” on page 4. A player may enter only one USTA National Championship that is scheduled to take place at the same time. For example, a player may not enter the USTA Girls' 16 Winter National Championships and the USTA Girls' 18 Winter National Championships in the hope of making it into at least one. Players who are entered in more than one USTA National Championship at the time entries close will not be accepted into either tournament and will receive suspension points.

DOUBLES ENTRY PROCEDURES - The entry deadline for the doubles event at USTA National Championships is on the day of registration and the time is set by the Tournament Committee - see the TennisLink Tournament Home Page for information. At USTA National Championships that have more than one division (the USTA Winter Championships, for example, that has the BG18 and 16 at one location), players must play doubles in the same division in which they are playing singles.

SINGLES SELECTION PROCEDURE – Each Tournament Committee shall accept players into the draws of USTA National Championships in the following order:

- **Players on National Championship Selection List (NCSL):** The following junior players on the NCSL who have submitted timely entries shall be accepted into the draw:

Players listed in positions 1 through 24 for a draw of 192

Players listed in positions 1 through 16 for a draw of 128

See "National Championship Selection List" below for the criteria for appearing on this list.

- **Players Who Qualified from USTA National Opens:** Top three singles finishers in each of the four preceding USTA National Opens who have submitted timely entries shall be accepted. In addition, the doubles finalists at each of the four preceding USTA National Opens who have submitted timely entries shall be accepted into the doubles draw and shall be singles alternates if they have not already been accepted into the singles draw. National Open singles and doubles qualifiers do not need Sectional endorsement for acceptance. (Note: The lower place finishers do not gain entry under this process even if one of the qualifiers fails to enter, is not age eligible for the tournament, or achieves entry by another procedure.)

USTA National Open	Qualifies for the following USTA National Championship:
February National Opens	USTA National Spring Championships
May National Opens	USTA National Clay Court Championships
July National Opens	The USTA National Championships
November National Opens	USTA National Winter Championships

- **Players within Sectional Associations' Quotas:** Junior players not previously selected who are on the Sectional endorsement lists, within the established Sectional quota, and who have submitted timely entries shall be accepted in the order determined by the Sectional endorser.
- **Wild Cards:** The Tournament Committee shall accept those junior players granted wild cards by the USTA Wild Card Committee and who have submitted timely entries. Wild card recipients do not need Sectional endorsement, however the Sectional office must complete a portion of a player's wild card application. See "USTA Junior National Wild Card Regulations" on page 11. Overall wild card limits are:
Four (4) wild cards for the 14s, 16s and 18s USTA National Spring Championships and USTA National Winter Championships and for all 12s USTA National Championships.
Eight (8) wild cards for the 14s, 16s and 18s USTA National Clay Court Championships and The USTA National Championships.
- **Endorsed players on National Standings List:** The Tournament Committee shall fill remaining spots in the draw with endorsed players who have submitted timely entries who remain on the most recently published singles National Standings List. See "National Standings List" on page 7.

SINGLES ALTERNATES:

- **Alternate List:** The Tournament Committee shall prepare an alternate list of those players with timely entries not accepted into the draw who appear on the Sectional Endorsement Lists and who are doubles finalists from the four preceding USTA National Opens. Alternates shall be ordered using the National Standings List used to accept players into the draw to fill remaining vacancies.
- **Replacement of Player Before Draw is Made:** The Tournament Committee shall replace a player who was accepted as part of a Section's quota with the next player on that Section's endorsement list. The Tournament Committee shall replace a player who was NOT accepted as part of a Section's quota with next highest remaining alternate.
- **Replacement of Player After Draw is Made, but Before the Completion of the First Round:** The Tournament Committee shall replace a player after the draw is made, but before the completion of the first round with next highest remaining alternate.
- **No Replacement of Players is Made After the Completion of the First Round:** No players are replaced in the draw after the completion of the first round. For example, a player who wins their first round, but can not play their second round due to injury, is NOT replaced with an alternate.

SINGLES SELECTION NOTIFICATION: The players and their acceptance status will be published to the TennisLink Tournament Home Page shortly after the entries close. Go to www.USTA.com, click on Tournaments & Leagues/Juniors Tournaments/Schedule and locate the tournament using the Searchable Schedule. Wild card recipients will be notified by the USA Tennis Junior Competition Department. Alternates selected to fill openings in the draw will be contacted by the Tournament Committee.

NATIONAL CHAMPIONSHIP SELECTION LIST (NCSL): The USTA shall publish to www.USTA.com an NCSL for each division with effective dates as of January 15, May 1, and October 1. Sectional endorsement is not required to appear on a NCSL. Each list shall consist of players who are age eligible for the subsequent USTA National Championship as follows:

- players who have an ATP singles ranking of 1000 or better or who have a WTA singles ranking of 600 or better as of the effective date - these players shall be listed in the order of their ranking and shall be placed at the top of the list;
- players not previously listed who have an ITF singles ranking of 100 or better as of the effective date – these players shall be listed in the order of their ranking and shall be placed directly below the first group of players; and

- players not previously listed who have (1) played in at least one National Ranking Tournament (see page 15 for the list of these tournaments) in the list's division during the 4 months before the effective date of the NCSL, and (2) at least two other National Ranking Tournaments in the list's division during the 12 months before the list effective date of the list. These players shall be listed in order of their strength of singles record calculated as of the effective date in the same manner as the National Standings List and shall be placed directly below the second group of players.

Note that the May 1 NCSL is used for both the USTA National Clay Court Championships and The USTA National Championships, except that immediately after the USTA National Clay Court Championships the list is republished and any players who are not age eligible for The USTA National Championships are removed and replaced with the next-highest player.

Administrative Errors: Junior players who do not appear on the NCSL due to administrative error may request a correction to the list. Requests should be sent to the USTA Junior Competition Office, 10399 Flores Drive, Boca Raton, Florida 33428, 561-962-6400, 561-962-6485 (Fax), jrcomp@usta.com. ITF AND USTA INTERNATIONAL TOURNAMENT INFORMATION

USTA INTERNATIONAL TOURNAMENTS: USTA International Tournaments are sanctioned by the USTA, but are run under ITF tournament regulations.

AGE ELIGIBILITY – 18 DIVISION: The ITF employs a “year of birth” age eligibility rule. This is NOT the same “month of birth” age eligibility rule used for USTA tournaments. Juniors may play the 18s division until the YEAR in which they turn 19. Juniors must be born between January 1, 1989 and December 31, 1994 to enter an ITF tournament.

AGE ELIGIBILITY – 16, 14, AND 12 DIVISIONS: While some ITF tournaments hold events in the 16s, 14s, and 12s divisions, these tournaments are technically not ITF tournaments and earn no ITF points. These include the Orange Bowl, the Eddie Herr, the Prince Cup, the Kentucky Derby, and the USTA International Spring Championships. Juniors may play the 16s, 14s or 12s division until the YEAR in which they turn 13, 15, or 17, respectively.

16's Division: Born between January 1, 1991 and December 31, 1994

14's Division: Born between January 1, 1993 and December 31, 1994

12's Division: Born January 1, 1995 or later

COMPETITION & RANKING YEAR: January 1, 2008 to December 31, 2008.

UPDATING PLAYER RECORDS

REVIEWING RECORDS: Players are responsible for regularly reviewing their national singles and doubles player records and should promptly submit corrections to the USTA Junior and Collegiate Competition Department (see "Contact Information" on page 2). It is recommended that players review their records after each tournament they play – tournament results are typically posted no more than one week after the completion of a tournament. All corrections must be submitted no later than January 28 to be considered for the previous calendar year's final year-end ranking.

FINDING YOUR RECORD ONLINE: To find your player record online, go to www.USTA.com and click on Rankings. Click on the posting for viewing National Standings Lists and Rankings. Select your division to view the appropriate list. Click on your name to view your record. If you appear on two separate lists, you must go to each list to review your record for the division. Only tournaments that count toward your standing or ranking will appear.

USTA NATIONAL JUNIOR RANKINGS

NEW COMBINED RANKING SYSTEM: The United States Tennis Association has approved a change in the ranking system for juniors. The USTA no longer publishes individual singles and doubles standings and rankings. Instead, the USTA publishes a combined ranking, which includes results from singles and doubles. The new ranking system includes results from singles matches and doubles matches in all tournaments that are now included in the calculations for the National Standing List and the year-end National Ranking. The points earned in singles competition are combined with the points earned in doubles competition to form one final point total that will be used for the National Standing List and the National Ranking. The USTA made this change to encourage players to play more doubles and to reward players for their success in doubles.

CALCULATION OF RANKING: Each player's annual ranking will be based on the accumulation of points for winning rounds ("Points Per Round") in singles and doubles and having wins in singles over "top 100" players ("Bonus Points") at National Ranking Tournaments during the calendar year. Players must accumulate at least 200 ranking points during the calendar year in order to earn a year-end ranking. The total number of points a player earns during the year is determined by adding ranking points as follows:

- 100% of the singles Ranking Points earned at 8 Best Singles National Ranking Tournaments*
- + 100% of the singles Bonus Points Earned at BG 18 ITF Bonus Point-Only Events on the National Junior Tournament Schedule
- + 15% of the doubles Ranking Points earned at 8 Best Doubles National Ranking Tournaments**
- = Total Ranking Points
- * Points Earned include Points Per Round from the Point Ranking Tables below PLUS any Bonus Points earned at the tournament. These Bonus Points are "attached" to the event at which they are earned. If a tournament is not among a player's best eight tournaments, neither the Points Per Round nor the Bonus Points for that event will count toward the player's ranking point total.

A list of the National Ranking Tournaments is in the table under "National Ranking Tournaments and Tournament Levels" below. Because 12 Sectional events are designated National Ranking Tournaments, it is possible for a player to earn a national ranking by playing only in Sectional tournaments.

EXAMPLES OF HOW THE COMBINED RANKING SYSTEM WORKS:

Player X (a player with better singles results)

Best eight (8) singles tournaments = 1500 points
 Best eight (8) doubles tournaments = 1200 points
 15% of 1200 = 180 points
 1500 + 180 = 1680 total combined ranking points

Player Y (a player with better doubles results)

Best eight (8) singles tournaments = 1200 points
 Best eight (8) doubles tournaments = 1500 points
 15% of 1500 = 225 points
 1200 + 225 = 1425 total combined ranking points

Any questions about the Combined Rankings can be directed to your USTA Section Office or the USTA Junior and Collegiate Competition Department (561.962.6400) jrcomp@usta.com.

SPECIFICS OF THE COMBINED RANKING SYSTEM INCLUDE:

- A player must win a round to receive any points for the tournament. The points tables that appear below are based on draws as large as 256 players. In draws smaller than 256 players, players do not receive any points until they have won a round. Byes do not qualify as wins.
- Withdrawals and walkovers qualify as wins for the advancing player and earn Points Per Round, but do not earn Bonus Points.
- Retirements qualify as wins for the advancing player and earn Points Per Round and, if eligible, Bonus Points.
- A player who advances because of a default that takes place before the commencement of the first point in the match or because the opponent is disqualified shall receive Points Per Round for advancing, but shall not receive any Bonus Points.

- A player who advances because of a default that takes place after the commencement of the first point in the match shall receive Points Per Round for advancing and, if eligible, Bonus Points.
- A player who is defaulted from a tournament for code violations under the Point Penalty System or misconduct forfeits any points accumulated during the tournament, including both Points Per Round and Bonus Points. Players defaulted in singles only lose points accumulated for play in the singles main and feed-in championship draws.
- No Points Per Round will be earned in the qualifying rounds of tournaments when the qualifying draw and main draw are covered in a single sanction. However, Level 1 through 5 tournaments, Bonus Points will accumulate for the tournament and will be attached to the tournament at which they are earned. Additionally, American juniors winning matches against other American juniors at the Australian Open, French Open, Wimbledon, and Canadian Open will receive Bonus Points that will be added to the player's total points earned at the player's best eight tournaments. See "Bonus Points – Rewards for Significant Wins" below.
- The final rankings for a junior age division shall include all players who have been age eligible for play in the division at any time during the year and who have accumulated at least 200 points in the division. Only points earned in the division will count towards ranking in that division. Players may be ranked in more than one age division if they have been age eligible in more than one division during the year and have met the minimum point requirement for each age division.
