Elpidio Sanchez-Marcos, President

Mike Link, General Manager

Esther Canaveral, Assistant for International Affairs

Tennislife ® recreational coating products "perform" with service, technical support and quality, in the field, on the court and around the world. Very few companies can claim successful installation and distribution of their product throughout the world. The Tennislife ® System is a multiple product, color surface treatment. It is based upon the application of successive textured and finishing coats. When applied over asphalt and concrete surfaces it provides an esthetically pleasing all-weather surface. Utilizing 100% acrylic and high quality resins, flexibility is inherent to all Tennislife ® Systems.
